BRAND GUIDE

Heading

Sub-heading

DIGICODE it builds software, websites and digital systems for growing businesses. This board is the working reference for the brand in use — the mark, the colour set and the type that carry every headline, interface and document.

- Icon alone at small sizes; full lockup everywhere else.
- Clear space around the mark equals one icon square.
- Blue leads, graphite supports, ink carries the text.
- Montserrat for headings, Open Sans for body. Nothing else.
